Attention: Mike Murphy

Dear Mike

Just a short letter to tell you how pleasantly surprised I was with the performance of the Turbu-flow. As you know the salt chlorinator on my pool was in constant need of cleaning in hydrochloric acid to remove the build up of scale. Since putting your unit on, not only have I not needed to clean the salt cell, but also the existing scale we had decided not to remove, has all but disappeared in just 2 weeks. Your unit has saved me considerable time already. Now I only open the cell to continue to be amazed at how clean it is.

The water is crystal clear and the white chalky residue that I used to get when rubbing my hand along the side of the pool is greatly reduced.

I would be happy to tell anyone with at a salt pool how wonderful the unit works.

Yours

**Tim Castle
